

# LETTER OF ENDORSEMENT

January 4, 2025

To Whom It May Concern:

Agreeably I write this letter to fully endorse the work of Louis J. Tofari. I have followed his work for many decades and see, in him, an earnest dedication to doing a Liturgical Arts Project in an historically accurate way.

Catholic churches must always strive to honorably design and display: the structure, the furniture and color to convey a sense of honor and dignity to a worship space. We are either drawn into worship by what we see, hear and participate in or we are merely participating in a bogus environment that does not lead to a dignified House of God.

Louis' work especially regarding a recent project he has worked on; [St. Peregrine's Church project](#) outside of Cleveland is a superb example of simple but elegant Romanesque architecture that pay appropriate homage the altar, baldacchino design, ambo and furnishings.

I heartily endorse the hire of Mr. Tofari for any design work and oversee general contracting work for any Catholic parish.
